Compliments of Senior Living Advisors

Western Pennsylvania Resource Guide

We are a free service to help families choose an appropriate Independent Living apartment with services, Personal Care Home, or Assisted Living community for their loved one that matches the medical needs, financial capabilities, and geographic preferences.

With the family's permission, we will assess the candidate at home, at the skilled rehab unit, or at the hospital. After obtaining an accurate report to determine the scope of care the individual requires, we make appropriate recommendations of communities that fit the parameters of medical, financial, and geographic needs.

Senior Living Advisors will accompany the family and prospective resident on tours to help them through the process. Our skilled representatives will always make recommendations as if it were pertaining to our own Mom, Dad, or other loved one. We answer seven days a week.
