

Join us at our Memory Café

WHAT IS A MEMORY CAFÉ?

In 1997, Dutch psychiatrist Bere Miesen introduced the idea of a place where those living with dementia and their caregivers can mingle in a comfortable and fun environment—a Memory Café!

This concept successfully made its way to the U.S. in 2008.

CAN I ATTEND A MEMORY CAFÉ?

YES! Caregivers are invited to bring their loved one living with dementia to relax and grab a bite to eat together in a casual, supportive environment. The group is held in a private room, and full of conversation, fun and meaningful connections.

And, of course, laughter and camaraderie are always on the menu!
