### *Compliments of Senior Living Advisors*

#### **Western Pennsylvania Resource Guide**

We are a free service to help families choose an appropriate Independent Living apartment with services, Personal Care Home, or Assisted Living community for their loved one that matches the medical needs, financial capabilities, and geographic preferences.

With the family's permission, we will assess the candidate at home, at the skilled rehab unit, or at the hospital. After obtaining an accurate report to determine the scope of care the individual requires, we make appropriate recommendations of communities that fit the parameters of medical, financial, and geographic needs.

Senior Living Advisors will accompany the family and prospective resident on tours to help them through the process. Our skilled representatives will always make recommendations as if it were pertaining to our own Mom, Dad, or other loved one. We answer seven days a week.

**Optimal Transport**

(724) 712-1986  
<https://www.optimaltransport.net/>

We pride ourselves in providing safe transport for wheelchair, non-wheelchair members and stretcher mobility needs. Most of our clientele is provided to us through UPMC insurance which covers the trips costs. We do offer "out of pocket" trips which the client has to pay.

We cover all surrounding counties, Allegheny, Washington, Westmoreland, Beaver and Butler. Typically for a wheelchair it is \$35 per trip plus the mileage.

Optimal provides Non-Emergency Medical Transport (NEMT), local and long distance. We are sourced for discharges, medically necessary transports to and from Dr appointments, surgeries, dialysis, other clinics and situations that can be challenging in nature. We transport to and from various types of nursing facilities and private residences. We operate a division that specializes in acute transports. Individuals that are bedridden and non-weight bearing, bariatric and situations that involve ascending or descending stairs. All these are completed in a timely, safe and with an unsurpassed level of care for the person being transported.
